Hallencourt, November 15th, 2017

FAVI among finalist candidates at the Supplier Innovation Day 2017 from MAGNA POWERTRAIN Group

FAVI will showcase its innovation, the die-cast copper rotor, to MAGNA POWERTRAIN's Purchasing and Technical departments at their Supplier Innovation Day in St Valentin, Austria, on November 21, 2017.

The die-cast copper rotor improves the energy efficiency of an asynchronous motor and can be used in traction systems for hybrid or electric vehicles.
